

Reyhan Roomeyn

Architectural Visualization Specialist

Role

Contributes to the development of architectural visualisations and marketing materials for real estate projects, specialising in photorealistic rendering, 3D modelling, graphic design and visual communication. Combines design expertise with advanced digital tools to create images, visual content and presentations that are fully aligned with each project's visual identity. Her work supports the enhancement and commercial presentation of real estate assets through clear, high-quality and visually engaging deliverables.

Key skills

Architectural Rendering	Production of photorealistic visualisations and renderings for residential properties and architectural environments, with particular attention to lighting, materials and visual consistency.
3D Modelling & CAD	Development of 3D models, CAD drawings and visual content supporting concepts, presentations and real estate projects.
Graphic Design & Visual Communication	Creation of graphic materials, layouts and marketing content, integrating visual communication with brand positioning.
Digital Workflow & Software	Advanced proficiency in Adobe Creative Suite, Blender, ZBrush, Unreal Engine, AutoCAD, Revit and 3ds Max.

Education & Certifications

Education	Master's Degree Candidate in Design, Multimedia and Visual Communication, Sapienza University of Rome. Bachelor's Degree in Architectural Engineering, University of Guilan, Rasht, Iran.
------------------	---
